

# SOUTH FOCUS AREA

## PROPOSED FUTURE CROSS SECTION\*

ALOHA ST. TO DEXTER ST.

\*THE PROPOSED PROPOSED FUTURE CROSS SECTION WILL BEGIN AT ALOHA ST. BECAUSE DENNY WAY TO ALOHA ST. HAS MANY ADD / DROP LANES

\*\*A DESCRIPTION OF THE PROPOSED FUTURE CROSS SECTION IS PROVIDED TO THE RIGHT

### DESCRIPTION OF PROPOSED FUTURE CROSS SECTION

#### Development Environment:

In this predominantly limited access section of the corridor, the only substantive change proposed for the existing cross-section is a wider amenity zone (sidewalk and planting strip). However, future high accident locations along this segment of the corridor may be upgraded if it is determined that roadway improvements would address accidents. These improvement upgrades could have right-of-way implications for adjacent properties.

See the Halladay and Raye Street Intersection Concept boards for a description of proposed intersection improvements with private property redevelopment.
